Titles of Completed Theses in Home Economics and Related Fields in Colleges and Universities of the United States

PART I: TECHNICAL AREAS, 1948-1949

PART II: EDUCATION, 1944-1949

Bureau of Human Nutrition and Home Economics

AGRICULTURAL RESEARCH ADMINISTRATION

UNITED STATES DEPARTMENT OF AGRICULTURE

In Cooperation with

Home Economics Service,

OFFICE OF EDUCATION, FEDERAL SECURITY AGENCY

This compilation of titles of theses pertaining to home economics and related fields has been assembled at the request of the American Home Economics Association. It should be useful to research leaders in planning programs and in advising graduate students to show the trend in investigations in a chosen subject-matter area, or at a particular institution. It may also be a guide to sources of qualified personnel in professional fields or with desired research experience.

This issue contains two lists formerly published separately, titles in subject-matter areas, and notes on graduate studies in Home Economics Education. Part I brings together titles for 1948-1949 in the technical areas, the arts and sciences of home economics. Part II includes titles for 1944-1949 in Home Economics Education in so far as the reporting has been complete. For the next issue, titles in all areas will be on the same academic year basis, 1949-1950, and organized as one volume. Titles of theses in Home Economics Education since 1944 are given in this issue to bring the compilations in that area up to date. Abstracts of doctoral dissertations in all areas will be printed in selected issues of the Journal of Home Economics and reprints will be available.

The order of listing titles in this issue is alphabetical by author throughout each subdivision. An author index, alphabetical within each subject matter area, has been provided in addition to the table of contents. Distribution of theses by subject and institution are shown as in previous years.

In order to furnish a year-by-year directory of all graduates with advanced degrees in Home Economics and related fields, a list of names of masters graduates not submitting a thesis as a part of the requirement for graduation has also been summarized for this publication. Like the author index, the list is alphabetical within each subject-matter area.
